EVERETT CYCLE CO., MANUFACTURERS OF McCUNE CYCLES

THEY ARE HIGH GRADE IN ALL POINTS OF CONSTRUCTION.

DESCRIPTION OF NEW CLUB HOUSE.

THE fronts on Fifty-ninth Street and Sixth Avenue and Fifty-eighth Street, it is hoped, may be architecturally attractive. The style is somewhat Mooresque in feeling, but does not follow it either in mass or detail very closely. The terra cotta ornament will be very rich, and the whole color scheme of the building has been carefully considered. The first story will be light red stone, simple, except over the main entrance, where the carving of the panels will be elaborate. All the terra cotta will be a warm buff, and the thin Pompeian brick will be of a salmon tone with black mottlings. The roof is to be of red Spanish tiles. The architect hopes that the color effects will tell against the cold brown of the adjoining building as well as make a harmonious contrast to the green masses of foliage of the Park. The architectural style will give opportunity for both beauty and originality in the interior decorations, as the carved and modeled ornament will combine harmoniously with the broad surface decoration in color. The marble work of main entrance hall will receive much attention in both design and color, and it is intended to make this hall a beautiful and dignified entrance. The decorative

scheme for the principal rooms is not, of course, complete, but it is the intention of the committee and the architect to make them both comfortable and artistically attractive.

The café and smoking room on the second floor is the principal lounging room of the club, and on account of its size and position, is susceptible of being made a most interesting room, filled, as it can be, with club trophies, pictures, weapons, relics, implements of sport and the chase. It should be the most characteristic room of the club, and in its furniture and appointments a unique and beautiful lounging room. The dining, breakfast, and supper rooms offer opportunities for some fine decorative effects, and can be made in their fittings and furniture in every way worthy of this great club. The parlor is to be specially fitted for the art exhibitions that have been so successful. This room can be shut off so that the repose and quiet that cannot be expected in the main lounging room can be found there. The quiet elegance of a room of this sort will appeal to many of the members who like the soberer side of club life. It is hoped that the library and reading room, from its isolated position, will offer

BROADWAY AND 13TH STREET, NEW YORK.

to reading members a secluded retreat, and also provide a place where a member's correspondence can be conducted in silence and seclusion. The following are the features :

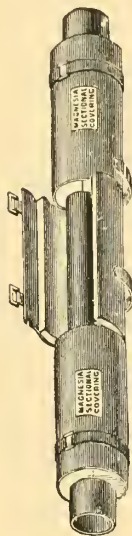

Cellar.—The engineer's department is under the Sixth Avenue sidewalk and is 24 feet high. The boilers are near the corner, and with the coal storage and ash hoist are enclosed to prevent dust, ashes, etc., from getting into the machinery. There is coal storage for 250 tons. The type and disposition of the boilers allow for the easiest firing, stoking, and cleaning possible, and facilitates the removal of ashes. One boiler can always be kept in reserve. The dynamos and engines are in a separate room and are not exposed to damage from dirt and ashes. Their capacity is sufficient to run all the lights, elevators, dumb-waiters, washing machines in the scullery and laundry, and all ventilating fans, also. One dynamo, at least, can be always resting. The switch-board will be of most perfect description. Space is provided under elevators and dumb-waiters for electric motors. All dynamos, engines, pumps, etc., are entirely separate from the boiler room and are all directly under the eye and control of the engineer. The position of the engineer's department being under the sidewalk, and also separated from the rest of the building by the large swimming tank and coal storage rooms, prevents the possibility of any annoyance from the heat, smell, or vibration penetrating into any other part of the club house. The disposition of the whole plant insures the greatest economy in labor, coal and in steam and electric connections. All the water for the house will be filtered, and the house and hot water tanks kept always

filled by automatic electric pumps. The boiler and dynamo plants are in excess of actual requirements and allow a portion of the plant being always out of use. The height of the engineer's department insures perfect light and ventilation.

Basement.—The large swimming tank, 24 x 75, is on the Sixth Avenue side of the building, and with the galleries over, cut off that unpleasant street from the rest of the club-house. The tank will be of glazed brick, and the platform and sides of the tank room and the galleries above will be of white marble, the railing of bronze. The seating capacity of the tank room will be about 500, the galleries sloping and stepped. There will be drying closets and shower baths in this room. The Turkish and Russian baths are also to be in the basement ; entrance to these will be through the large room, where a sufficient number of dressing-rooms to accommodate any number of members will be found. The smoking parlor opens from this dressing-room onto large tank, and will be fitted up handsomely with fireplace and every convenience. All the hot and steam rooms will be under the sidewalk on Fifty-ninth Street, and any annoyance from the heat, etc., will be obviated. There is a special shower room provided ; also, linen, slab, massage, chiropodist, sleeping and attendants' rooms. All the bath rooms open on the swimming tank room. There is a small plunge in the steam room and one dry hot room without either shower or plunge.

Bowling Alleys.—The bowling alleys are separate from the other parts of the house, and the alleys run out in the vault under the sidewalk, where the pins are set up. This arrangement will prevent the noise of the

Magnesia Sectional Coverings.

UNEXCELLED

Committees will please apply at the Office in Casino, or at No. 1 Chambers Street.

alleys penetrating into other portions of the building. The floors overhead and the partitions around the alleys are to be thoroughly deafened. There are raised seats at the end of the alleys for spectators and room for chairs in the centre between the alleys. Wash basins, dressing-rooms, and ball lockers are provided; toilet room separate. The barber shop is also in the basement, near the Turkish bath, but entirely separate. There is room for six chairs, two bootblacks, etc.

The Fifty-eighth Street L is for the storage of bicycles. The room is 22 feet high, with two galleries, and will accommodate about 600 wheels. There is a runaway from Fifty-eighth Street and direct access to baths and service and athletes' elevator to locker floor. Rooms for cleaning and repairing are provided. All supplies are taken into the building from Sixth Avenue on cars that run on incline and track to the elevator and dumb waiters.

First Floor.—The whole of the Sixth Avenue side is taken up with the galleries over the swimming tank, with direct entrance from the main hall on occasion of races or water polo games. This tank room is 31½ feet high from basement to second floor and will be

perfectly lighted and ventilated. The main entrance hall is in centre of building on the Fifth-ninth Street side and is 38 feet wide. This will be finished in marble, with marble mosaic tile floor. The entrance is from an open loggia 10 x 36 feet. There are two 8-foot doors, one for entrance and one for exit on crowded occasions. The whole front of this entrance hall will be glass, to insure perfect lighting, the main stairway and elevators are directly in rear of this entrance hall. The library opens from this hall, and is separated from all other parts of the house to avoid any noise or other annoyance and to insure perfect quiet for reading and writing. This room will have bookcases and trimmings of hard wood, with wood ceiling and wainscoting and parquet floor. The reception room also opens from the main entrance hall. The offices are behind the reception room, and the coat room is opposite, across the side hall. There are telephone rooms and a serving room, and dumb-waiters opening on this and all other floors. The Fifty-eighth Street L has wash and toilet rooms and two committee or chess rooms. There is an entrance on Fifty-eighth Street connecting through the hallway with main building.

“There’s only one girl in this world for me,” and she chews Primley’s Gold Box Pepsin Gum.

New York Athletic Club House, Travers Island.

Second Floor.—The Sixth Avenue side is entirely taken up by the billiard and pool rooms. There is one private billiard and one pool room, thirteen tables in all. There is a wash room and toilet in billiard room. The centre portion of this floor is the main lounging and smoking-room. This large café can be also the trophy-room of the club. It is 38 feet wide by 50 feet long, and extends directly through the building from front to rear. The stairway and elevator open directly into this room through arches. On the easterly side is the parlor. It can be used as an exhibition room on occasions. In the rear is the bar, with separate space for waiters and with special bartenders for them. A large store room and ice-box is provided for the bar, and the dumb-waiter and serving rooms on every floor make the bar service perfect throughout the house. There is a toilet and wash room also on this floor. The Fifty-eighth Street L has small cafés and the board room.

Third and Fourth Floors.—These floors are given up to bedrooms. There are four large suites with par-

lor, bedroom, closets, and bath. The rest of the rooms are mostly in suites—one or two alcove bedrooms and good-sized parlors. All have closets and wash basins. On each floor is a linen room, housemaid sinks, and a large storage room for trunks. There will be toilet rooms on each floor and bath rooms with tubs, and a large shower room in addition. These bedrooms, parlors, bath, and toilet rooms will be thoroughly ventilated and heated. There will be abundance of light and air, and every convenience will be provided for the members. The service elevators will permit the passage of members from the bedrooms to both exercise room above and to the Turkish baths and bicycle rooms below. There is room for sixty beds on these two floors.

Fifth Floor.—This is the exercise floor. The large gymnasium is free from posts except at one end, and there is to be placed the permanent exhibition platform. This can be converted into a stage readily by curtains. Adjoining rooms can be used for waiting and dressing rooms. Toilet apparatus is provided for

August 12, 1895.

In all forms of muscular strain, in bruises, jams, or discoloration from blows—the Electropoise will act magically if immediately used, to reduce the swelling ease the pain, take out the heat, and remove the discoloration, if any. In one case of severe strain and pain at the inner angle of the elbow, due to base ball pitching of the twist ball, and which had lasted some weeks, so that to act as pitcher induced great agony, a two hours' treatment by the Electropoise enabled the arm to be violently used without pain.

In another patient suffering from a very painful sprain of the ankle, the use of the Electropoise restored the foot to almost normal strength in one night. No local heat, pain and swelling can remain when the Electropoise is used, because the force entering the body when it is used causes a general and free distribution of the blood to all parts of the person under treatment, so that any local congestion is necessarily dispersed, and the heat, pain and swelling disappear.

RED BANK, N. J.

artists. The track is 7 feet wide and on a level with mezzanine floor. Two stairways lead from the gymnasium floor to the gallery. The stairways and elevator open directly on this gallery also, a great convenience when the building is crowded. The position of these exercise floors—half way between the social and dining room floors—will materially help the emptying of the gymnasium, as the crowd can be sent by rapid elevators and wide staircases in both directions. Opening from the gymnasium floor is the office of the athletic director, the handball court, and boxing rooms. In the Fifty-eighth Street L is the fencing room and lounge with toilets, etc. From the gallery on the mezzanine floor, opens the measuring room and wrestling rooms. The Fifty-eighth Street L contains the room for the rowing machines and a living room for the athletic director.

Sixth Floor.—This is the locker floor. There will be provision made for 1,500 lockers or more in main building, and in the Fifty-eighth L will be a room for small box lockers as well as a lot of dressing rooms. There will be rooms for attendants, office, drying room for clothes, toilet, massage, and shower rooms also. The Sixth Avenue side will have fifteen bedrooms for transient visitors, with toilet, linen, and trunk rooms. A lounging room is provided on this floor where members can smoke and have a drink after their exercise and bath.

Seventh Floor.—In the front, facing the Park, is the main dining room. That with color, carving, and drapery can be made equal to any club dining room. The breakfast and supper room adjoin. There is a very large serving room, also lavatory, delivery

room, wine room, etc. The Fifty-eighth Street L is devoted to servants' rooms and toilet and store rooms.

Eighth Floor.—The Fifty-ninth Street front is taken up by the roof garden. This can be enclosed in Winter and turned into a track and exercise room for wheelmen. This will be the Summer dining room also. On the Sixth Avenue side will be placed six private dining rooms with serving rooms, etc. A toilet room is also conveniently placed here. There will be the greatest convenience in service. A buffet bar room is provided for waiters. The kitchen, receiving, service, and distributing rooms and bakery are on this floor. The Fifty-eighth Street L is taken up with scullery, store rooms, and steward's room. All the cold storage rooms, butcher shop, vegetable room, and canned goods and grocery room are placed here also. The arrangements contemplate the most careful supervision of this whole department by steward, chef, and manager.

Ninth Floor (the roof).—Here are the servants' rooms, etc. A large dining room is provided for heads of departments, and another for men and women servants, with dumb-waiters and serving room from kitchen. There is also a dressing room for servants and waiters, with wash room, bath room, and toilet arrangements. There is a place provided for the tailor shop and linen room and china closets. The tanks and store rooms take up the rest of the vacant space.

As the plans develop, many other features may be added to assure the most complete, comfortable, and handsome athletic club that can be built.

Complete Line of STABLE FITTINGS.

is indeed difficult to pick the winner, but we do not think that the best of the American four will be equal to the task of defeating such a consistent runner as Bradley.

220-YARD RUN.

A. R. Downer, L. A. C., and Oxford, has won the Scottish amateur championship for three consecutive years, and holds the Scottish amateur record. He is also a joint holder with E. H. Pelling of the world's best 220 yard record, and is credited with the British record at 300 yards. He is generally admitted to be the fastest amateur in England from 150 yards to 300 yards.

G. Jordan, L. A. C. and Oxford University, is the interuniversity champion at 100 yards, and is no doubt in the first rank at 220 yards, but we can find no record of his having competed at that distance.

T. I. Lee, N. Y. A. C., is the joint holder of the world's best record at 220 yards of 21 4-5s.

J. V. Crum, N. Y. A. C. and C. A. A., has a record of 22s., being the slowest time of two watches, the other registering 21 3-5s.

B. J. Wefers, N. Y. A. C. and L. C. and A. A., has a record of 22 4-5s., and has recently defeated Lee at this distance.

C. W. Stage is credited with 21 3-5s. for 220 yards.

If Lee was in as good form as last year, we should look no further for the winner, but this is doubtful, and the issue at present seems to be between Crum and Downer, with the chances slightly in favor of the latter.

QUARTER-MILE RUN.

"There are others," but  like "Defender," leads them all.

Erie Basin Dry Dock, Brooklyn, New York, August 16, 1895.

CHICAGO VARNISH CO.

Gentlemen: Yes—we are using "Navalite" on the "Defender." Bought it from Ferguson, of New Rochelle. We had to have a Varnish that would stand all weather and hold its gloss; that is why I use yours.

Very truly,

(Signed) H. C. HAFF.

bridge University, has a record of 49 3-5s. He won the quarter mile at the London A. C.-Cambridge University sports this year, beating E. C. Bredin; won again at the Oxford-Cambridge sports, and once more at the amateur championship meeting, where he again beat Bredin.

G. Jordan, L. A. C. and Oxford University, has run 4 yards behind 50s. He won the quarter mile at the Oxford-Cambridge and Oxford-Yale sports in 1894, and was beaten 4 yards by Fitzherbert in the Oxford-Cambridge sports this year.

T. E. Burke, N. Y. A. C. and Boston A. A., has a record of 49 1-5s., and won the New England quarter-mile championship in 1894.

G. M. Sands, N. Y. A. C., has a record of 59 4-5s., and won the quarter-mile Metropolitan championship in 1893, 1894 and 1895.

I. I. Brokaw, N. Y. A. C., has run in 48 4-5s. from 15 yards.

G. F. Sanford, N. Y. A. C., has finished 4 feet behind 50s.

Burke should win this event, as his record made at the spring games of the New York Athletic Club does not express his real ability.

HALF-MILE RUN.

F. S. Horan, L. A. C. and Trinity Hall, Cambridge University, has finished 4 yards behind 1m. 56s., and again, 4 yards behind 1m. 55 4-5s. At this year's English amateur championship meeting he was second to E. C. Bredin.

E. J. Wilkins, L. A. C., receives a liberal handicap

SOME of the most conservative and successful financial institutions in the world are in the City of New York. The investment for many years of the enormous amounts held in trust for their clientele or policy-holders, measured either from the standpoint of safety or earning capacity, illustrates how safe and productive of income their method is. The favorite investment of these great institutions, as is well known, is in *Improved Real Estate*.

The Cass Realty Corporation (incorporated under the laws of the State of New York) invests its capital in *productive Real Estate in New York City*. The returns of such investments are satisfactory. Its common stock pays six per cent. a year, and its preferred stock five per cent. Dividends are paid quarterly. Shares are one hundred dollars each. A surplus is also being accumulated.

The desirableness of such investment of money is patent to every individual, but the individual cannot make it in his own person. He lives too remote from the city, or the amount he has to invest is too small. Neither has he the knowledge and experience needed for wise decision. Hence the Corporation meets a demand and makes good a lack. It represents the advantages of *combination* and *local experience in management*. The man of small holdings and whose residence is remote from the city can, through its agency, reap the benefit of sharing in the safest and best investments known to the country. He who owns a single share in this Corporation owns an interest in a property that the largest and wisest capitalists of the country eagerly seek after.

For full particulars apply to

CHARLES W. CASS, *President*,
No. 503 Fifth Avenue,
New York City, N. Y.

from Bredin. We cannot find his exact record, but it is little, if any, better than 2m.

C. H. Kilpatrick, N. Y. A. C., has a record of 1m. 55 2-5s., won the A. A. U. half-mile championship in 1894, and the Metropolitan Association half-mile championship in 1894 and 1895.

A. M. Remington, N. Y. A. C. and Suffolk A. C., has a record of 1m. 58 4-5s.

Kilpatrick appears to be the pick of the contestants, and we look to him to win.

ONE-MILE RUN.

W. E. Lutyens, L. A. C. and Sidney College, Cambridge University, has a record of 4m. 19 4-5s. He won the mile run at the London A. C.-Cambridge University sports this year; also won at the Oxford-Cambridge sports, and was second to Bacon at the amateur championship meeting.

T. P. Conneff, N. Y. A. C., holds the world's record of 4m. 15 3-5s. He won the English amateur championship in 1888, the American one-mile championship in 1891, and the one-mile Metropolitan championships in 1893 and 1894.

G. W. Orton, N. Y. A. C., has a record of 4m. 21 4-5s. He won the American and Canadian one-mile championships in 1892, 1893 and 1894, and the intercollegiate championship in 1895.

Conneff is running so well that there is little doubt of the result. He should win easily, and it is a pity that Bacon did not come to meet, probably, the only man in the world that can carry him along faster than he cares to go.

THREE-MILE RUN.

F. S. Horan, L. A. C. and Trinity Hall, Cambridge University, has a record of 14m. 44 $\frac{3}{4}$ s. He won the Oxford-Cambridge three-mile run in 1893, 1894 and 1895, and was second in the London A. C.-Cambridge University sports this year, finishing behind H. A. Munro.

S. Thomas, L. A. C., holds the world's record of 14m. 24s. for three miles.

T. P. Conneff, N. Y. A. C., has a record of 14m. 56s. He won the five-mile championship of America in 1888, 1889, 1890 and 1891.

E. C. Carter, N. Y. A. C., has a record of 14m. 50 2-5s. He won the five-mile championship of America in 1886 and 1887, and the ten-mile championship in 1886, 1891, 1893 and 1894.

As both Conneff and Horan will have competed earlier in the day, the result will depend on the severity of those races; but Conneff, in his present form, should repeat well enough to win.

120-YARD HURDLE RACE.

G. B. Shaw, L. A. C., holds the English amateur record, 15 4-5s., and has been credited with the former British record, 16s., several times. He is a veteran athlete, having won the French championship and run second for the English championship in 1886. He then moved to New Zealand, and won many races there. Returning to England, he was beaten for the championship in 1890, 1891 and 1892, but won in 1893, 1894 and 1895.

W. J. Oakley, L. A. C. and Christ Church College, Oxford University, won the Hurdles at the Oxford-Cambridge sports this year, and was second at the championship meeting, finishing $2\frac{1}{2}$ yards behind Shaw, who won in 15 4-5s.

S. Chase, N. Y. A. C., holds the world's record of 15 3-5s. He won the American and Canadian championships in 1894, and the intercollegiate championship in 1895.

E. H. Cady, N. Y. A. C., has a record of 16 1-5s. He won the hurdle race at the intercollegiate games in 1894.

D. B. Hatch, N. Y. A. C., has a record of 16s. He won the hurdle race at the Yale-Harvard games this year.

Notwithstanding Shaw's undoubted ability as a hurdler, we predict a victory for Chase, who is the fastest and safest hurdler we have ever seen.

RUNNING HIGH JUMP.

R. W. Williams, L. A. C., has cleared 6 ft. He won the English amateur championship in 1894, and was second to Ryan in 1895.

M. F. Sweeney, N. Y. A. C. and Xavier A. C., holds the world's record of 6 ft. 5 in. He won the American and Metropolitan championships in 1893, 1894 and 1895.

S. A. W. Baltazzi, N. Y. A. C., has a record of 5 ft. $11\frac{3}{4}$ in.

This event is, of course, a certainty for Sweeney.

DITMANS' SEA SALT

Is the Natural Salt of Pure Sea Water. —

THE beginning of cool Autumn weather drives people home from the sea beach and surf, and baths in the breakers begin to be unseasonable. Formerly this made a grievous shortcoming in the comfort of invalids and others who derive so much benefit from the medical effect of splashing in salt water. A weak attempt at a salt bath at home was made by dissolving rock salt in the bathing water, but it was only an imperfect approximation of the real article. By the aid of "Ditman's Sea Salt," which is now furnished in large or small packages and at very moderate price, the benefits of the ocean bath can be brought to our homes. By dissolving this article in water we have exactly the fluid in which we immerse ourselves when we take a surf bath. The tonic and remedial effect of true sea water on many varieties of disease are so well known that it is unnecessary here to enlarge on them. For all who are weak, rheumatic, nervous or dyspeptic, the salt bath at home possesses qualities so excellent that its use should be universal. This preparation, "Sea Salt," has not only attained universal popularity, but is so thoroughly endorsed by the medical profession that no family need for a moment hesitate to give it a cordial home welcome.

The invigorating and remedial effects of sea bathing, when not indulged in to excess, are everywhere recognized. But it is frequently the case that those who are in most need of it, and most likely to be benefited by the sea bath, are too feeble to take it in the sea, and millions there are who cannot afford it. Pure sea salt contains all the saline matters of the ocean; it is put up in portable packages, and sent (if need be), at a very trifling expense, to the ends of the earth. To promote the appetite, give tone to the muscles, and increase the capability of enduring fatigue, few tonics equal the salt bath, while for enfeebled anæmic young women and children, and persons with cachectic taints, it is one of the most valuable remedies known. "Ditman's Sea Salt" supplies the very want of the age, presenting to everyone the pleasure of Sea-bathing, without the necessity of a residence on the coast. Send for circular and prices to

A. J. DITMAN, Chemist, 2 Barclay Street, New York.

RUNNING BROAD JUMP.

W. J. Oakley, L. A. C. and Christ Church College, Oxford University, has been credited with 22 ft. 11 in. He was third in the Oxford-Cambridge sports this year, beaten by both Mendelson and Fry, but won the amateur championship from a poor field, beating Mendelson, who is an uncertain performer.

W. Mendelson, L. A. C. and Cambridge University, has a record of 22 ft. 5½ in. He won the broad jump at the Oxford-Cambridge sport, defeating C. B. Fry, the joint holder of the world's record.

L. P. Sheldon, N. Y. A. C., has a record of 22 ft. 11 in. He won the broad jump at the intercollegiate meeting this year, and was also victorious at the Yale-Harvard meets in 1894 and 1895, and the Yale-Oxford meet last year.

E. B. Bloss, N. Y. A. C., has a record of 22 ft. 11¾ in. He won the intercollegiate and the New England Association broad-jump championships in 1892 and 1893.

Sheldon has been unable to train properly, owing to an injured foot, and Bloss, who is doing good work, should win.

PUTTING 16-LB. SHOT.

A. J. Watson, L. A. C. and Cambridge University, won the shot at Oxford and Cambridge sports this year with 37 ft.

G. R. Gray, N. Y. A. C., holds the world's record of 47 feet. He has been American champion since 1887, and has not been defeated since 1885. He won the English championship in 1888.

Gray will win with ease.

Boyer's Patent Sectional Water Tube Boilers

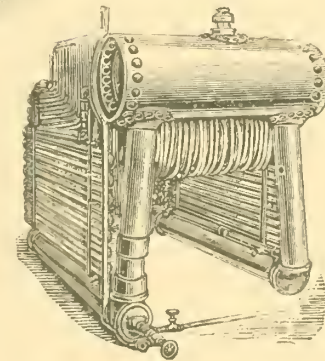

THESE rapid Steaming Boilers require less room, occupy less space in width, height and length; weigh less than any other.

Have short, perfect circulation, no dead ends, no joints in the fire, and any engineer can get at all parts of it.

The owner of the **Steam Yacht "Rex"** writes: "Many a time I have seen her make 20 miles an hour, for one or two hours, with the boiler door wide open."

This boiler is 4 feet wide, 6 feet long, 5 1-16 feet high, and weighs, with water, 4,250 pounds. Address:

L. BOYER'S SONS,
90 WALL STREET,
NEW YORK CITY.

THROWING 16-LB. HAMMER.

G. S. Robertson, L. A. C. and Oxford, has a record of 116 ft. 7 in. He won at the Oxford-Cambridge sports in 1893, 1894 and 1895.

J. S. Mitchell, N. Y. A. C., holds the world's record of 145 ft. $\frac{3}{4}$ in. He won the American championship every year from 1889 to 1894, the Metropolitan championship for the past four years, and the Canadian championship in 1890, 1892 and 1894.

W. O. Hickok, N. Y. A. C., has a record of 135 ft. $7\frac{1}{2}$ in. He won the hammer-throwing at the Oxford-Yale contest, and at the intercollegiate and Yale-Harvard sports in 1893 and 1894.

H. B. Cross, N. Y. A. C., has a record of 135 ft. Mitchell should win this event with ease.

It will be seen from the foregoing that the New York Athletic Club team is expected to win nine of the eleven events on the programme; but in the quarter-mile, half-mile, and three-mile runs, and the broad jump, the English representatives will make a good fight, and have an excellent chance of scoring. Even should they capture two of these doubtful events, the New York A. C. would be victorious by seven to four, and we calculate that the score will be, if anything, more in the Americans' favor.

CLUB COMPETITIONS.

THE races arranged by the Athletic Committee to serve as trials for the international team, have proved a decided success. The original idea, to have the races confined to club members, was abandoned after the first meeting, when the world's record made was invalidated, as the time was not made in an open race.

Those who were present on August 21 will not soon forget the wonderful running of T. P. Conneff in the three-quarter mile run. It was well known that Conneff was in better condition than ever before, but, as all his races had been won on tracks that were not in first-class shape, his most ardent admirers had no idea of his real speed when extended on a good track. Kilpatrick had beaten Conneff in a race at the same distance a few weeks before this contest, and was expected either to win or finish a close second, but Orton was not looked upon as dangerous, as he was palpably short of work. When one lap had been covered, Conneff went by Orton, who had cut out the pace for the scratch men, and, traveling at a terrific gait, caught

Carter, who had started from the 80 yards mark at half a mile. Kilpatrick was then about five yards behind. From this point Conneff drew away rapidly, his beautiful machine-like action carrying him along without apparent effort. He eventually won by about twenty yards, the time, 3m. 24-5s., being 41-5s. faster than the best previous world professional and amateur records, the latter being held by himself.

In the 120-yards handicap, G. F. Sanford, the old Yale athlete, surprised the scratchmen by finishing a comfortable winner from the 4-yards mark. The time of the first heat, 114-5s., shows that Lee would have had a good chance for victory if running in his last year's form; as it was, Wefers, his companion on the scratch line, was a foot in front of him at the hundred yards. Wefers increased this to a yard at the finish, he being a like distance behind the winner. The officials were, J. H. Booth, J. W. Carter, and J. S. Mitchell, judges; Bartow S. Weeks, A. Schroeder and R. T. Lyons, timers; E. J. Giannini, starter. The following are the summaries:

120-yard handicap, first heat—H. S. Lyons, 4½ yards, and T. I. Lee, dead heat, in 121-5 seconds. Second heat—George F. Sandford, 4 yards, first; B. J. Wefers, scratch, second. Time 12 seconds. Final heat—Sandford, first; Wefers, second. Time, 114-5 seconds.

440 yards, scratch—T. E. Burke, first; George Sands, second; A. J. Townsend, third. Time, 501-5 seconds.

Three-quarter-mile run, handicap—T. P. Conneff, scratch, first; C. H. Kilpatrick, scratch, second; George W. Orton, scratch, third. Time, 3m. 24-5s.—*N. Y. Athletic Club Journal.*

N. Y. A. C. 55TH GAMES.

The presence of the international teams will make the fifty-fifth games of the New York A. C., at Travers Island, on September 28, more than usually interesting. The programme contains more handicap events than usual, most of them being at odd distances. It is, therefore, quite likely that more than one winner in the international meeting will suffer defeat in the club games. Only two of the events are scratch—the running hop, step and jump, in which E. B. Bloss may establish a world's record, and the fifty-yards run, which should prove exciting, and an excellent test of fast starting. The judges will have hard work to pick the winner with so many fast sprinters competing.

The medals are handsomer than usual, and consist, as usual, of gold to first, silver to second, and bronze to third. The entries close on September 18, with Secretary John C. Gulick. Entrance fee, \$1.00 for each event. There will be no postponement. The following is a full list of the events: 120-yard run, 300-yard run, 600-yard run, 1,000-yard run, 1½-mile run, 120-yard hurdle race, 220-yard hurdle race, running broad jump, 1 mile walk, throwing 16-lb. hammer, pole vault, 2-mile bicycle race, Class A; putting 16-lb. shot, running high jump, all handicaps; 50-yards run, running hop, step and jump, scratch.—*N. Y. Athletic Club Journal.*

RAHTJEN'S American Composition Co.

Manufacturers of the highest grade of anti-fouling and anti-corrosive paint for application to the bottoms of steel and iron vessels.

HARTMANN'S, RAHTJEN'S COMPOSITIONS

are used almost exclusively by the British Admiralty, and have been adopted by the United States Government for its fast cruisers, torpedo boats, etc.

All the trans-Atlantic record breakers are coated with these compositions, and among the boats of the New York yacht fleet that have also been coated by **Rahtjen's** American Composition Co. may be mentioned the "Sultana," "Nourmahal," "White Ladye," "Hermione," "Oneida," "Marietta," "Judge," "Dungeness," "Sea Fox," "Ariel," "Sapphire," "Intrepid," and "Almy."

It is the **ONLY** fast, durable and safe coating for the bottoms of iron and steel vessels.

THE MONETARY TRUST,

50 BROADWAY, NEW YORK.

THE MONETARY TRUST does not attempt to read superficial market fluctuations nor to rely upon them. It does undertake to get quick recognition of the workings of natural forces in a given direction; to note radical market changes before they culminate, and to place its clients in a position to get the advantage of their uprising. It does undertake to rest its purchases on natural conditions and to make its movements at a time when market forces seem in a position to work in harmony with intrinsic merits. THERE IS NO OTHER WAY TO MAKE MONEY IN WALL ST.

The Monetary Trust will endeavor to place its clients in a position to realize from the present era of general improvement. This country is about to make a vast stride in rapid growth. It will endeavor to place its clients in a position to receive a relative proportion of the wealth thereby developed. THERE IS NO OTHER WAY TO FOUND OR IMPROVE A FORTUNE. You may save something from wages and salaries, but if you ever enjoy a fortune it will have been created by the tendency of the times and the growth of the country. The Monetary Trust places each client, however limited his funds, in a relative position as promising as that of the largest capitalist.

The time has come for The Monetary Trust to ask the confidence of the cautious investors. During every financial cycle there is a period when a man should buy securities with caution, and another period when he should not own securities at all. The time is now here when sound securities should be bought with courage. The ambition of the officers of The Monetary Trust is to make it a great money-making institution, under the policy of slow, cautious, steady improvement of each account, but whenever combinations of natural conditions and market forces seem to work in a given direction, and to promise large results, The Monetary Trust will endeavor to realize therefrom for its clients.

FRANCIS D. CARLEY, President.

ATHLETICS IN JULY.

THE wretched weather which prevailed on the Fourth of July was responsible for many disappointments. A number of athletic contests were postponed, while those decided were more or less affected.

The most important victory credited to the New York A. C. was the relay race at the People's sports at Philadelphia, won by H. S. Lyons, H. Chubb, G. M. Sands, and C. Kilpatrick. In addition to the prizes won by the individual runners, the club trophies have been increased by a valuable silver cup, held by the winning club each year.

The New Jersey A. C. pluckily went through with its programme in spite of the rain. The all-around championship was won by J. Cosgrove, of Albany. L. P. Sheldon, New York A. C., who had been doing excellent work in practice, did not arrive on the grounds in time to compete, and thus threw away whatever chance he possessed of gaining the title.

LONDON: 327 GRAYS INN ROAD.

The two-mile race between T. P. Conneff and G. W. Orton was one of the principal attractions of the Worcester and Suffolk A. C. joint meeting at Worcester, Conneff winning in 9 minutes, 36 seconds.

The New York A. C. team did good work at the games of the Printers' A. A., on July 13th. H. H. Baxter won the pole vault handicap from scratch with 10 feet 5½ inches. C. Kilpatrick took the half-mile from scratch, and T. P. Conneff romped away from a lot of long-distance men in the two-mile handicap. M. P. Halpin took second place in the 100 yards, and G. M. Sands was second in the 220 yards.

At Albany on July 18th, Kilpatrick and Conneff still further distinguished themselves, the former winning the quarter, half-mile, and mile local race, and Conneff the one-mile handicap in the good time of 4 minutes, 23 seconds on a poor track. M. P. Halpin won the scratch 100 yards at the present meeting.

Notwithstanding heavy handicaps, Conneff and Kilpatrick were again victorious on July 20th, at Lion Park, Conneff capturing the mile handicap in the fast time of 4 minutes, 25 2-5 seconds, considering the condition of the track, and Kilpatrick winning the half-mile handicap.—*N. Y. Athletic Club Journal*.

Leading and Responsible West Side Druggists

THE elegantly located Drug Store at the corner of 86th Street and Columbus Avenue, recently purchased by firm F. O. Lindsey & Co., is now in the hands of competent people, viz.: **F. O. Lindsey & Co.** It has been thoroughly overhauled and almost reconstructed, and now has become a neat and well appointed Pharmacy, stocked with first-class Drugs, Medicines and kindred preparations.

Physicians' prescriptions and family recipes are here compounded in the most careful manner, in every instance, from pure and fresh ingredients. A complete stock and a fine assortment of Toilet Articles, Perfumeries, Soaps, etc., while an elegant Soda Fountain is one of the features of this fine establishment. Experienced assistants are in attendance, while the proprietors, Messrs. Lindsey & Co., exercising personal supervision over the prescription department and, altogether, the proprietors are men of experience. It is the aim of the company to make this the leading Drug Store of the West Side by careful attention to business and by conducting the establishment in a strictly first-class manner, as only men of experience and capital can do.

JOHNSON'S EXTRACT OF KOLAFRA

ATHLETES' SUSTAINING FOOD AND STIMULANT.

It increases muscular power enormously, or, rather, preserves it over long periods of exertion. It stimulates activity and facilitates respiration. It prevents palpitation and loss of breath following rapid action, thus largely taking the place of training. In long runs it's an indispensable boon.

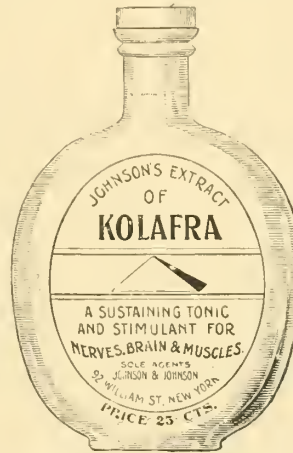

**GIVES STAYING POWER.
PREVENTS FATIGUE.
ALLAYS HUNGER AND THIRST.**

Besides increasing muscular power, the Extract of Kolafra prevents the feeling of fatigue due to exertion. Also greatly allays hunger and thirst.

**NO REACTION.
NO AFTER EFFECTS.
NO HABIT.**

It is a peculiarity of Kolafra that, unlike other tonics and stimulants, it gives no unpleasant reaction and produces no habit. Its use may be continued as long as desired and discontinued at any time.

The Extract of Kolafra for athletes is put up in handy pocket flasks, price 25 cents each. Sold everywhere by Druggists.

**EXTRACT OF KOLAFRA HAS
BEEN THOROUGHLY TESTED.**

The sustaining power of Kolafra has been proven by the tests of army boards, noted wheelmen, athletic trainers, physicians and others, whose reports have been published largely in medical journals and secular newspapers.

From M. C. MURPHY, trainer of Yale College and the N. Y. Athletic Club.

"I used Kolafra Extract myself extensively before giving to my men, and found that it is all that is claimed for it. It braces the muscles and moreover keeps them braced. I find by its use that I cannot train a man tired. Kolafra Extract kills fatigue, gives staying power, and its effect is enduring. I know of no other stimulant that a trainer can conscientiously give his men."—M. C. MURPHY in *N. Y. Tribune*.

**EXTRACT OF KOLAFRA COUNTERACTS THE EFFECT OF ALCOHOL,
AND HAS BEEN PRONOUNCED A SPECIFIC FOR INEBRIETY.**

**KOLAFRA COCKTAILS STIMULATE, BUT DO NOT INTOXICATE.
CLUBS AND PRINCIPLE BARS SERVE THEM.**

ARE YOU HOMELY?

Mme. A. Ruppert

If your features are perfect, but your COMPLEXION disfigured by FRECKLES, Pimples, BLACKHEADS, Moth, TAN, Eczema, SALLOWNESS, etc., then you **are HOMELY**. Bear in mind that thousands whose features are NOT perfect but who have a lovely skin and complexion are considered

BEAUTIFUL,

why allow unsightly blemishes, such as mentioned above, to mar your beauty when

Mme. A. RUPPERT'S FACE BLEACH

will remove them, surely, quickly and painlessly, without the slightest harm to the skin. FACE BLEACH, which is no experiment, is solely the invention of Mme. A. Ruppert, and is the only preparation for beautifying the complexion which has withstood the test of time. Call at Mme. Ruppert's Parlors, 6 East 14th St., N. Y. City, and see a lady with ONE side of her face cleared from FRECKLES, by FACE BLEACH, the other side showing the freckles as they originally were, WITHOUT treatment by Face Bleach. To every one mentioning the LONDON ATHLETIC CLUB 75. NEW YORK ATHLETIC CLUB PROGRAMME who purchases a \$2 bottle of Face Bleach, Mme. Ruppert will present FREE a bar of her exquisite Almond Oil Soap. A sample bottle of FACE BLEACH can be obtained either by mail or in person, for 25 cents. Send or call for book HOW TO BE BEAUTIFUL—FREE.

Mme. A. RUPPERT, 6 East 14th St., New York City.

MORE THAN **TWELVE DOLLARS A MINUTE**

on the average is being paid to the policy-holders every minute of every hour of every day of every week, the year through, by the

METROPOLITAN LIFE

INSURANCE COMPANY OF NEW YORK.

This is one of the oldest Life Insurance Companies in the United States.

It has been doing business for more than a quarter of a century.

It has over Three Million Policies in force on its books.

60,000 families will receive the proceeds of its policies this year.

More than 10,000 persons are actively in the service of this Company in the United States.

It is the most progressive Life Insurance Company in America to-day.

ITS GREAT FEATURE IS ITS INDUSTRIAL PLAN OF LIFE INSURANCE.

5 Cents per week and upward will secure a Policy.

All ages from 2 to 70 taken. All policies in immediate benefit. Claims paid immediately at death. No initiation fee charged. Males and females insured at same cost. Premiums collected by the Company weekly at the homes of policy-holders. Only healthy lives are eligible. No uncertain "assessments." No increase of dues.

THINK OF IT!

The daily saving of FIVE CENTS will carry policies on the lives of every member of a family of seven persons.

ORDINARY DEPARTMENT.

The Company in this Department issues all the approved forms of Policies and some novel forms of Policies for \$1,000 and upward, premiums payable yearly, half yearly and quarterly. The policies are liberal in their provisions, contain no restrictions as to travel and residence, provide for **immediate payment** of claims upon receipt of satisfactory proofs of deaths, and the premium rates are extremely low. We invite comparison of rates with other companies.

SPECIAL NOTICE.

AGENTS WANTED—Agents are wanted by this Company in all the principal cities. Splendid opportunities are offered to active, energetic men. Those out of work, or those who are in situations with little or no chance of promotion, should give the business a trial. To the right kind of men it offers steady, permanent and paying positions, with opportunity for merited advancement. If this notice is not applicable to the reader, and he has a friend whom he thinks it might interest, will he be kind enough to bring the subject to that friend's attention? For further particulars apply at any Branch Office, or to the Home Office, 1 Madison Avenue, New York.

LOADS OF COMFORT!

Williams'

Shaving

FOR over fifty years the perfecting of **Shaving Soaps** has been our constant aim and study.

Stick.

The late Bishop Brooks when in London some years ago, inquired at a shop for the *very best* Shaving Soap.

He was handed some of **Williams' Shaving Soap** with the remark "Here is an American article which we consider the best thing in the world."

WILLIAMS' SHAVING SOAPS—

—in three principal forms—are sold by *Dealers everywhere*.
 "Genuine Yankee" Soap, 10c. Williams' Shaving Stick, 25c. Williams' Barbers' Soap, 40c.

Oldest and most famous cake of shaving soap in the world. Millions using it.

Strong, metal-lined case. For Tourists' and Travelers' use. Don't fail to ask for **WILLIAMS'**—and take *no other*.

This is the kind your barber should use. It is also most excellent for Toilet use. Tons of it sold yearly to *families*. 6 cakes in a package, 40c.

NOTE.—If your dealer does not have these soaps—we mail them—to any address—postpaid on receipt of price.—All three kinds sent for 75c. in stamps.

REGINA,
 THE
 QUEEN
 OF
**Music
 Boxes.**

PLAYING THOUSANDS OF TUNES
 and rendering sweet and silvery music, far superior to the finest Swiss
 music box made.

ALL THE LATEST MUSIC,
 all of Sousa's Marches, the latest Popular Songs, Operatic Pieces, Waltzes,
 etc., can be had for these boxes at the price of a piece of sheet music. The
 tune discs are metal and indestructible. The movement massive with
 nothing about it to get out of order, being safe from injury in the hands
 of a child. The cases are handsome, being made in all styles of wood
 and handsomely polished.
 For the entertainment of friends, for the nursery, for dancing, these
 boxes are unequalled. They run from ten to twenty five minutes with
 one winding, which is done noiselessly.

Boxes from \$7.00 to \$100.00.

De Lancey Private School for Girls,

75 West 85th Street, New York,

IS situated within half a block of Central Park, and conveniently near to elevated and surface cars. The building is perfectly ventilated and well lighted, and great care has been given to the plumbing. The principal will be at the school on and after September 15th to receive all applications for admission. The school aims to give thorough and well directed instruction to girls, and as broad an education as is possible. None but able and experienced teachers will be assigned to the various departments. It admits girls of all ages, but especially desires pupils at an early age, as much time is wasted whenever a child's early education is neglected or misdirected. Pupils will be received into any of the classes for which they are found to be qualified, and may be fitted for any college or university to which girls are admitted. Special students will be admitted upon special terms to any of the regular classes of the school. Afternoon classes will be formed for ladies who desire to pursue the study of Modern Language or Literature. Certificates of Graduation are awarded to pupils who have completed the full course.

Terms, \$200 to \$250 per Term.

# THE REGAL SHOE

All styles—one price—quality the best.

Send  
2 cent  
stamp for  
Catalogue M  
With rules for self  
measurement.

EVERY ONE knows the **Regal Shoe** is the best shoe in the world. We are bound to keep it so, and we wish the public to know that a shoe of equal quality cannot be made and sold for less than the price we ask.

To meet the advance in leather the price of the **Regal Shoe** is now \$3.50 instead of \$3.00 as formerly. We warrant every pair of shoes as far as any manufacturer or dealer in the country, regardless of name or price.

We make and sell our own shoes and have no agents.

**A Record  
Worth \*  
Having. \*  
Waverley  
Mile, 1.57 $\frac{1}{3}$ .**

**A**T Denver, Col., July 27, O. E. Boles, a pure amateur, who has trained but two weeks this season, rode an exhibition mile on a Waverley road wheel in the phenomenal time of 1.57 4-5 on a 3-lap track, beating all Colorado records and establishing a new mark for the Class B and professional record-breakers to try for. While record-breakers in the past have been equipped with trainers, trained pace-makers and special made machines, the fact this mile was done on a **regular stock road** Waverley by a man who never had a trainer in his life is significant. . . . .

**W** **AVERLEYS** are Fast

**As well as the Best of all High Grades.**

When you buy, get your money's worth by buying a Waverley. More of them sold in the past three years than any other make of high grade bicycle in the world. Price \$85.00. Catalogue free by mail.

## ARE YOU HOMELY?

*Mme. A. Ruppert*

If your features are perfect, but your COMPLEXION disfigured by FRECKLES, Pimples, BLACKHEADS, Moth, TAN, Eczema, SALLOWNESS, etc., then you are HOMELY. Bear in mind that thousands whose features are NOT perfect but who have a lovely skin and complexion are considered

## BEAUTIFUL,

why allow unsightly blemishes, such as mentioned above, to mar your beauty when

## MME. A. RUPPERT'S FACE BLEACH

will remove them, surely, quickly and painlessly, without the slightest harm to the skin. FACE BLEACH, which is no experiment, is solely the invention of Mme. A. Ruppert, and is the only preparation for beautifying the complexion which has withstood the test of time. Call at Mme. Ruppert's Parlor, 6 East 14th St., N. Y. City, and see a lady with ONE side of her face cleared from FRECKLES, by FACE BLEACH, the other side showing the freckles as they originally were, WITHOUT treatment by Face Bleach. To every one mentioning the LONDON ATHLETIC CLUB 75, NEW YORK ATHLETIC CLUB PROGRAMME who purchases a 2 bottle of Face Bleach, Mme. Ruppert will present FREE a bar of her exquisite Almond Oil Soap. A sample bottle of FACE BLEACH can be obtained either by mail or in person, for 25 cents. Send or call for book HOW TO BE BEAUTIFUL—FREE.

CLEPSYDRA OF THE CIRCUS MAXIMUS.

## This Curious Drawing

from an ancient intaglio (many times enlarged), gives a faithful picture of

the kind of timekeeper that adorned  
the walls of the Circus Maximus,

where the great races were held in the days of the first Cæsars. It represents two Cupids, back to back, supporting in their uplifted hands a vase with contracted mouth, whence issues a stream of water, the emptying of the vase indicating a certain time. : : : : : : : : : :
